Styleactions.com

Hello! Thanks a lot for downloading the animated post template, I hope it will be of service to you.

PSD is set up in 1080 x1080 dimension

You can easily change texts, content, images, objects and color palette.

The PSD file is very well organised, with color coded groups and layers named appropriately.

<<<<<<<<<<<<<<<<<<<<<<Free fonts used in design: <<<<<<<<<<<<<<<<<<<<<<

1) Myriad Pro http://fontsgeek.com/fonts/Myriad-Pro-Regular

3) Century Gothic https://www.linotype.com/147488/century-gothic-family.html

<<<<<<<<<<<<<<<<<<<<<< How to update (change) the main <<<<<<<<<<<<<<<<<<<<<<

1) Make sure that your layers palette (Window --> Layers) is opened.

2) Choose the layer «YOUR IMAGES HERE >>> Right click >>> Edit Content» ,right click on the layer, select “Edit content”.

3) Change the blurred image to yours.

4) Close the window. Confirm the changes by clicking «Yes»

<<<<<<<<<<<<<<<<<<<<<< How to change the color<<<<<<<<<<<<<<<<<<<<<<

1) In MASTER ADJUSTMENTS group there are layers for contrast and color balance updates.

Just click twice on Layer Thumbnail and do necessary changes.

2) In Color Options 1 and Color Options 2 groups, there are many pre-installed color solutions for your PSD template.

Our team thanks you again for purchasing the psd post template.

We are always happy to help you.
